# Installation

Insert the CD for the my makeup makeover wedding into the CD drive on your computer.

**Windows:**
If autorun is enabled on your computer the installer for the program should launch automatically. If the installer does not launch click on the 'my computer' icon and select the CD drive that the program resides on. Now click on the icon named 'setup.exe' to start the installer

**MAC**
Click on the icon 'my_makup_makeover installer' to begin the installation process. The installer will create a new folder in the applications folder on your computer. An icon will also appear in your desktop folder to launch the program.

**NOTE: The CD is required to be in the CD drive to run the program.**

# Chapter 3

**Makeover view**

The 'makeover view' is accessed from the first page that appears when the program is launched.

There are five buttons available on the first page:
'create makeover'
'previous makeover'
'must have list'
'just for you'
'exit makeup makeover.

**Create makeover:**
Click on the 'create makeover button' and this will begin the process of creating a new makeover for the bride.
The first page is 'my contact information' this page is where you will enter the name and contact information for the bride. (Just use the 'tab' key to move to the next field)
After entering the contact information just click the 'next' button to proceed to the next page of the makeover.
If you would like to pre-enter the brides information for use later click the 'save' button on the bottom of the page. (You can then pre-enter another bride's contact information for future use by clicking the 'new' button and then entering the new brides contact information).

**About me**
On the about me page you can click on the box (choose) to pull down a menu of the foundation shade to enter for the bride.
Any where that you see a '!' inside of a square, you can click on it to play an audio clip for addition information about the selection.

Type in an age in the 'age field' the program will give you a final selection based on up to five age categories.

Click on the pull down menu for 'skin type' and make a selection from the menu. The selection made here will be reflected on the final report page.

Click on the pull down menu for 'eye color'.

Click on the pull down menu fore 'hair color'.

Now click on the 'next' button to proceed to the next page.

**Eye shape selection**

You will see a number of eye shape images appear on the screen. Just click on any of the images that look like the eye shape for the bride. You can select several selections from this page. When an eye shape image is selected by clicking on the image with the mouse you will notice that the image appears in the left column to verify your selection. You can use the slider bar on the right part of the page to view more eye shapes. After you have made any selections that apply just click the 'next' button to go to the next page.

There is also a button at the top right of the screen that is labeled 'pre-profile'. Use this button to select a basic eye shape if you are not sure of the actual eye shape of the bride.

The selections made on this page will determine what eye shadow application page is printed.

**Lip size selection**

You will see a number of lip size images appear on the screen. Just click on any of the images that look like the lip size for the bride. You can select several selections from this page. When a lip size image is selected by clicking on the image with the mouse you will notice that the image appears in the left column to verify your selection. You can use the slider bar on the right part of the page to view more lip size images. After you have made any selections that apply just click the 'next' button to go to the next page.

There is also a button at the top right of the screen that is labeled 'pre-profile'. Use this button to select a basic lip size if you are not sure of the actual lip size of the bride.

The selections made on this page will determine what lip stick preference is available on the 'my preferences' page.

**Perfect timing**

This page allows you to select the time of day that the bride will want to get photographed. Each selection will yield final color choices based on the time of day.

After selecting a time of day click the 'nest' button to go to the next page.

**My preferences**

Chose a lip color preference from the pull down menu. Notice that there is a special audio clip button that you can click for additional information.

Choose a mascara preference.

Click inside the product interest box to select as many of the skin care selections as apply. The selected products will appear on the final report page.

**Final report page**

The final report page will display the color choices that Robert has selected based on the information you entered on the previous pages.

There are several navigation buttons on the final report page.

Click on the 'next look' button to view another color selection. Notice that the number next to the 'current selected eyeshadow option' will change each time you click the 'next look' button. After the number of new looks is exhausted that number will start again with the first look and rotate through the available looks again.

Click on the 'next blush' button to get a new blush color that is selected to work with the eye shadow and lipstick choices on the screen.

Click on the 'next lipstick' to get a new lipstick selection that will work with the eye shadow and blush selection choices on the screen.

Click on the 'eyeshadow application diagram' for a printable diagram with application steps for the eye shape you chose on the 'eye shape selection' page.

**Print makeover** will print the final report page that you are currently viewing.
**Print sample page** will print a special report page that includes the color selection that you are currently viewing that includes areas to attach samples.
**Print before / after** will print a special report page that lists the color selection on a sheet that you can cut out and attach to the back of a photo.
**Print eyeshadow diagram** will print a diagram with application step for the eye shape you chose on the 'eye shape selection' page.

**Save makeover** will save a printable version of the color selections that you are currently viewing. Note – the computer screen could flash each time a record is written to the database, this is normal.

**Create new makeover** will return you to the contact information page to begin a new makeover.

**Previous makeovers** will display a list of saved makeovers in the database. There are several search buttons available on this page to allow you to locate a saved makeover easily and quickly.

Highlight a name on the list and select final report to return to the editable final report page for the bride. This will display the last saved makeover.

View makeovers will open the database view for the selected bride. The '**all makeovers'** tab allows you to print the final report page for each of the previously saved looks. Click the 'back' button to return to the makeover creation view in the program. (the delete button next to each of the saved makeovers will allow you to delete individual saved makeovers. The delete button on the top part of the page will delete all records for the selected bride.)

# Chapter 4

# Database

The database view can be access from the final report page by selecting the 'previous makeovers' button. And then selecting a saved bride and then clicking on the 'view makeovers' button.

The database view is a separate program that runs in combination with the makeover view program to allow for enhanced functionality.

The database view consists of a three tab layout to quickly access information about the bride. The first tab displays the customer contact information fields and can be used to quickly change information saved for a particular customer. The last makeover tab displays the information from the last saved makeover for the bride and allows you to print any of the four report pages for that last makeover. The all makeovers tab displays all of the saved makeovers for the selected customer. The saved makeovers can be printed or deleted but not modified.

Click the 'back' button to return to the makeover view.

# Chapter 5

Updates for the my makeup makeover weddings program are provided on an as needed basis when addition color choices are added or removed.

We notify registered users via email when updates become available. (click on the 'just for you' button from within the program to register)
