

Everyone-

To further help all of you achieve the looks that everyone will want for fall/ winter, here are more trend reports. Trends are so easy to follow once you know how to achieve them.

So with this email we will learn how, now.

Three more trends you need to know for the fall/ winter season:

1. Smoky eyes- were all over the runway, but smoky is not just about dark black shadow, it is how you apply the color. Also the smoky eyes on the runway were done with more subtle color choices.

2. Flushed cheeks- that fresh face youthful glow.

3. Strong eyeliner- Audrey had nothing on the girls this season.

A strong liner graced many a runway this season.

Have fun learning how to be trendy this season!

Much love and respect-

Robert Jones
