THE BEAUTY CULT

Whether it's a makeup artist staple or a secret potion with a silent following, these pages reveal cult-status, "how-did-I-ever-live-without-this?" beautifiers that are perfect for your wedding look.

We adore the geniuses who create wildly indulgent things that are actually *good* for us like **Animalia Candles** — essential oil-packed elixirs housed in Czarina-worthy European mouth-blown glass jars. Each of the six scents brings a specific desired energy into our environment and synchronizes our physical and emotional state; even the color of the super-chic jar symbolically supports the energy inside. Shown here in *Stairways*, which quiets the mind and helps you ascend above daily obstacles, like whether the reception chair covers should be Sunny Gold or Golden Sun, \$72; animalia-kingdom.com.

Nature didn't give you the legs of a swimsuit model? Patented skin strengthener **Murad Firm & Tone Dietary Supplement** attacks stretch marks and cellulite from the inside out, for firm results in just eight weeks. \$135 for a four-week supply; murad.com.

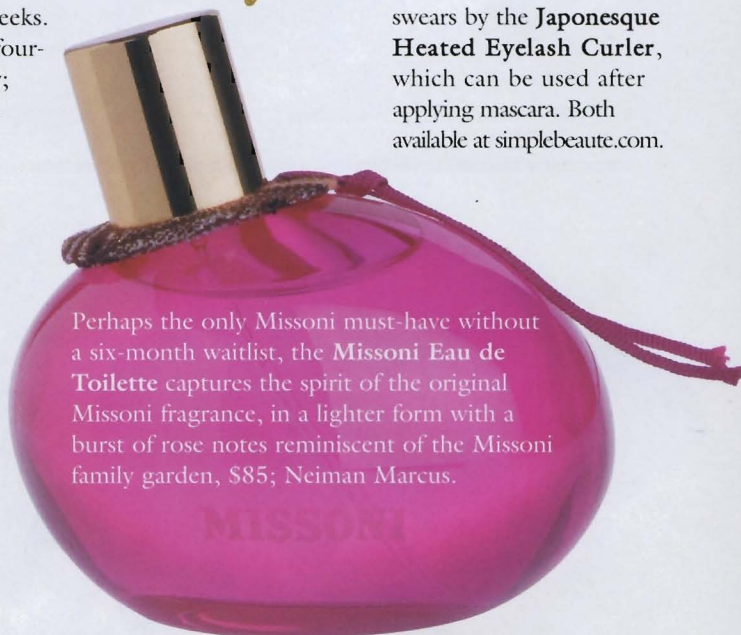

Celebrity Makeup Artist **Robert Jones** demystifies makeup with simple how-to's in **Makeup Makeovers: Weddings**, \$24.95, featuring stunning looks for the whole bridal party. Jones' secret for fab photos is "a gorgeously defined lash line, created by thick, dark, curled lashes." He swears by the **Japonesque Heated Eyelash Curler**, which can be used after applying mascara. Both available at simplebeaute.com.

The first body care line from uber-elegant niche perfume house **L'Artisan Parfumeur**, the **Jatamansi** collection is pure, natural, and organic — but in the lush, ultra-nourishing way, not the earthy-crunchy way. The Bath Milk, shown, transforms your bath into a softening spa-style soak, \$75; artisanparfumeur.com.

Celeb hair guru Kim Kimble knows that keeping your hard-won bridal hairstyle in place for hours is a must. Her power-hold pick is **Kimble Hair Care Systems Shape and Hold Spritz** because "it's lightweight and keeps hair soft while preventing movement." \$14.20; kimblehaircare.com.

Perhaps the only Missoni must-have without a six-month waitlist, the **Missoni Eau de Toilette** captures the spirit of the original Missoni fragrance, in a lighter form with a burst of rose notes reminiscent of the Missoni family garden, \$85; Neiman Marcus.
